Order of Cults

Step into a world of hidden horrors and forbidden devotion with 25 fully realized cults, each meticulously crafted with its own dark purpose, enigmatic leader, and prophetic oracle. Every cult comes alive with an abstract and hook to draw players in, a leader and oracle complete with deep backstories and stat blocks, and a unique ability that fuels their sinister ambitions. Explore their hierarchies, from zealous initiates to shadowy masterminds, and uncover their goals through rich histories with detailed timelines. Discover where they operate, their hidden bases, and the cursed artefacts they wield—each a vessel of dread power. Delve into their peculiarities, public perception, and the fanatical members who serve under strict codes of conduct, all while facing internal and external challenges. 32 eerie rituals offer forbidden rites to twist fate, summon entities, or reshape reality itself. For Game Masters, this book provides secrets, adventure hooks, and dynamic Encounter Tables to seamlessly integrate these cults into your campaign. Will your players resist their influence, exploit their power, or fall into darkness? The choice is theirs—but the cults are always watching.
